

You always need a CPA.

Financial expertise.
Leadership.
Business acumen.
Management skills.
Strategic vision.

As key players in economic and social development, Quebec's 40,000 Chartered Professional Accountants (CPAs) are recognized for their integrity, proven expertise and analytical ability, which will lead you to success.

A CPA has the expertise and knowledge to transform your challenges into business opportunities.

40,000 CPAs who

lead
organizations through change

provide
precise financial projections

help
organizations implement their business strategies

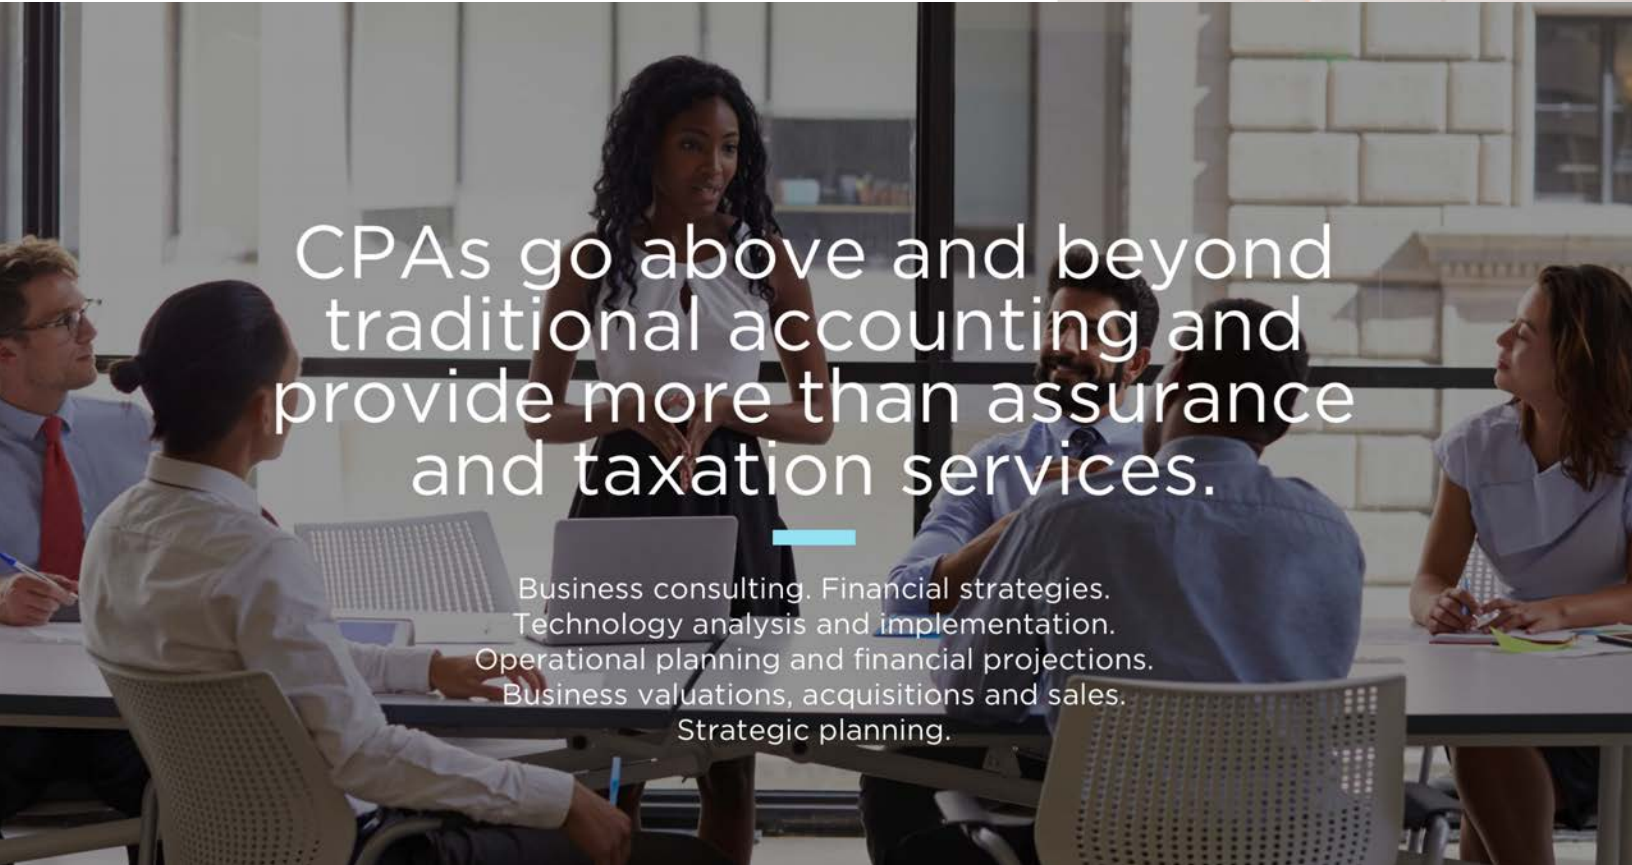

advise
entrepreneurs in such matters as business successions, acquisitions and start-ups

fast-track
expansion into new markets

manage
the challenges of growth

CPAs go above and beyond traditional accounting and provide more than assurance and taxation services.

Business consulting. Financial strategies.
Technology analysis and implementation.
Operational planning and financial projections.
Business valuations, acquisitions and sales.
Strategic planning.

When you do business with a CPA,
you get:

a trusted
advisor

a personalized
approach that helps
you make smart
decisions for your
organization

an unwavering
commitment to
your success

a desire
to meet your
most exacting
requirements

Accountant or chartered professional accountant?

An accountant is not a CPA.
Protect yourself and your organization.

CPA is the one and only accounting designation recognized in Quebec. It is a seal of quality and reliability that guarantees you are doing business with a professional who scrupulously complies with internationally recognized standards.

As members of a professional order, CPAs are required to meet professional standards of competency and integrity as well as keep their knowledge up to date.

Professional
inspection.

Professional
liability
insurance.

Code of ethics.

Compulsory
continuing
education.

Disciplinary
mechanisms.

Throughout
their career,
CPAs are subject
to a number
of regulations
put in place
to protect you
and the public.

The Quebec CPA Order

We are an advocate, thought leader,
regulator and educator.

We protect the public by ensuring that Quebec CPAs
meet the highest standards of competence and integrity.
