An entity that becomes a reporting issuer by virtue of the market capitalization or total assets becoming \$10,000,000 or more in respect of a particular fiscal year shall be considered to be a reporting issuer thenceforward unless and until the entity ceases to have its shares or debt quoted, listed or marketed in connection with a recognized stock exchange or the entity has remained under the market capitalization or total assets threshold for a period of two years.

In the case of a period in which an entity makes a public offering:

(a) the term “market capitalization” shall be read as referring to the market price of all outstanding listed securities and publicly traded debt measured using the closing price on the day of the public offering; and

(b) the term “total assets” shall be read as referring to the amount of total assets presented on the most recent financial statements prepared in accordance with generally accepted accounting principles included in the public offering document.

In the case of a reporting issuer that does not have listed securities or publicly traded debt, the definition of reporting issuer shall be read without reference to market capitalization.

In the application of Rule 204.4(1) to (12) “review client” includes its related entities, and the reference to an assurance client, a client or an entity that is a review client shall be read as including all related entities of the assurance client, client or entity, as the case may be.
